Maxell Engineering Services LLP

Our Services

Our team includes Mechanical, Structural and Electrical engineers with certified fabricators like supervisor, fitter, welder and helpers. We provide one point solutions with engineering, procurement, construction, installation and job site execution to all our clients.

We Execute

We execute each type of steel works in India and USA. We delivered excellent quality structural steel works in challenging situation with stunted time duration to our esteem clients. We are the leading steel fabrication company in the region and have top of the line facilities to manage multiple works at the same time. We utilize state-of-the-art equipment to handle all aspects of steel fabrication, as well as the application of the sophisticated painting and coatings.

Our Projects

Our projects are supervised by experienced project engineers, who are responsible for the delivery of projects to predefined quality standards and time duration. Our approach and processes are different for each client and fit into their requirements, processes and the agreed work-flows. However, all of our expertise, experience, systems, processes and protocols are used to build a process and system that our clients are comfortable with.
